

**Letter Requesting Potential Sponsorship**

Dear \_\_\_\_\_

**Re: The Arusha School Project**

CJALtd works with many community orientated projects across the North East of England project managing the process from fund sourcing to initiation of project, consultation with communities on elements to be included within these projects, and then designing and constructing the exterior or interior features.

The Arusha School Project in Tanzania echoes many of the aspirations of CJALtd, to promote local culture, give value to its heritage, contribute to the heritage of the future and ensure local knowledge is transferred across generations. CJALtd has taken the Arusha Project as its flagship charitable cause for 2007 onwards and has the following objectives it hopes to achieve:

- Raise £5,000 for the construction of a dormitory and underground water tank
- Source 6 laptop computers for the school to enable I.T instruction and the promotion of international exchange of cultural knowledge between British schools and the Arusha Project.

As a client, supplier, subcontractor or business contact of CJALtd, we are hopeful you will be able to make a small sponsorship donation towards the above objectives. All contributions will be recognised in any publicity. Director Rob Jamieson will lead a team of CJALtd staff to undertake voluntary work during the summer of 2007 to construct the dormitory and offer teaching time to the pupils. The project will be covered in the local media and it is hoped a documentary will follow. CJALtd Director Christine Jamieson has undertaken to voluntarily source the necessary funding to ensure this project takes place. All travel and living expense incurred by those taking part in the project will be covered by the individual.

Can you make a small contribution? I have enclosed information about the Arusha Project. Further information is available via the CJALtd website [www.jamiesonassociates.co.uk](http://www.jamiesonassociates.co.uk)

Kind regards

Christine Jamieson
